TORII / Sconce

WALL LIGHT

The distinctive form of Torii Sconce pairs clean lines and organic textures to offer a uniquely sculptural wall light.

What began as material exploration into the refraction of light through textured glass, became beautifully resolved handcrafted pieces. Each panel is subtly unique due to the manual moulding and forming process.

This lighting piece lends itself to sophisticated interiors and modern architectural spaces.

Note: There are natural variations in the glass profile due to the gravity slumping process.

MADE IN MELBOURNE, AUSTRALIA
