

# GLOBOSUS

## PENDANT LIGHT

The Globosus Pendant balances sculptural form with functional clarity. Fine brass arms extend to meet soft pleated mesh, each bent by hand to create a sense of movement and variation. The mesh gathers into a machined collar that houses the LED bulb and connects seamlessly to the brass arms – a meeting of craft and precision.

Designed to adapt, Globosus can extend into high voids or fold closer for lower ceilings. Its presence is warm and architectural, offering a considered expression of light that feels both resolved and alive within a space.

MADE IN MELBOURNE, AUSTRALIA
